FOR IMMEDIATE RELEASE

ETS Solutions Expands Service Offerings to Enterprise Clients with Acquisition of J&D Consulting and Hiring Founder, Jim C. Jarrells, as CEO

Metro Atlanta – March 1, 2019 – ETS Solutions, an international provider of voice, data and cloud consulting services, is pleased to announce its recent acquisition of J&D CONSULTING, LLC, an Orlando, Florida provider of telecommunications products and services and the addition of Jim C. Jarrells as the CEO of ETS Solutions.

ETS Solutions partners with clients to deliver a technology framework that enhances their business communication, collaboration and productivity. Russell will continue to provide oversight of ETS Solutions. Jarrells, founder of J&D Consulting, LLC., as CEO of ETS Solutions, brings over 20 years of industry experience to the role.

“Jim’s experience adds a new product set to ETS that will benefit all of our clients who need that extra hands-on approach to implementing technology solutions. His expertise allows us to expand our onsite project management including managed services and IT staff augmentation,” said Mike Russell, President and Founder of ETS Solutions. “Jim’s work ethic, extensive technology project management experience, and core values perfectly align with ETS.”

"I am pleased to join ETS Solutions in fulfilling their goal of becoming a market leader, and I look forward to further advancing ETS’s successful business model and team focused culture while providing exceptional service to our customers,” said Jarrells. “J&D’s years of technology delivery and operational experience will help capitalize on the growth of communications and cloud-based solutions for clients worldwide”.

About ETS Solutions

ETS Solutions is committed to exceptional customer account management utilizing the ETS User Xperience™ with a focus on delivering voice, data, cloud and security solutions that best serve our customers' needs and align to their budget and business requirements. Since 2002, ETS has helped clients efficiently assess, evaluate, secure and manage their technology requirements.
